Sketch, Canva, Illustrator, Photoshop, After Effects, Pen + Paper, Figma

INTERESTS

Traveling, Dogs, Reading, Programming, Working with micro-controllers, Embarking on researches, Swimming, Playing video games, Attending social events

PROJECTS

Visual Impairment Aid

A device which aims at providing aid to the visually impaired. This project was started with the aim of creating a DIY visual impairment aid that uses haptic and sound feedback. Basically it uses a distance sensor to measure how far objects are from it and then it beeps/vibrates accordingly (when far away it gives slow vibrations/long beep delay and close up it gives fast vibrations/quick beeps)

Transcript Generator
CPE461 Project

A program designed to generate a .docx file which consists of student's result details, grading and remarks

Passlist Generator

A python script that takes in a collection of data given to it , then generates possible password combinations that can be gotten from those details
